

**Activity Report: Visit to the CETP**

<b>Name of activity</b>	Visit of the TY BSc Biotechnology students to the common effluent treatment plant (CETP)
<b>Objectives of the activity (maximum 40 words)</b>	To acquaint the students with the process of collecting, treating and disposing of the industrial effluents.
<b>Organizing department/s</b>	Biotechnology and Microbiology
<b>Collaborative institute</b>	NA
<b>Date ( DD / MM / YYYY )</b>	16/02/2023
<b>Venue</b>	CETP, Koparkhairane, Navi Mumbai
<b>Mode</b>	Offline
<b>Details of Resource person (name, designation, institution)</b>	Mr. Mahesh Patil Staff CETP, Navi Mumbai
<b>Key Participants</b>	Third Year Biotechnology students
<b>Remarkable outcomes/ key take-away messages (max. three)</b>	<ul style="list-style-type: none"><li>• Students got acquainted with the overall infrastructure and set up of an effluent treatment plant.</li><li>• They got new insights into the sludge management, primary, secondary and tertiary treatment of waste water received from the industries.</li></ul>
<b>Details of participants</b>	
Total Number	37
Outsiders	-
In-house	37
<b>Additional information</b>	The students could better understand that The Common effluent treatment plant helps the industries in better control of pollution and also acts as a step towards a cleaner environment. The CETP ensures proper handling and disposal of solid and liquid effluent wastes with enhanced feasibility.

Name of Coordinator/ teacher in-charge: Ms. Radhika Barve
