

Pre-Primary Section

Dear Parents,

Due to lockdown, we are currently unable to re-open the school. It is important for all of us to stay indoors and take all the necessary safety precautions. To make sure that the lockdown does not affect the education of these students we have designed an online curriculum which the students should undertake with the help of their parents. We will be updating this online curriculum weekly starting June 15th. You can access these on the school website.

While this is the basis of their future education, the student should not be forced to complete the activities provided as all of them will be revised when the school re-opens.

The school management has undertaken the necessary steps to make sure that your ward will not miss any of the important lessons due to these extenuating circumstances.

Thanks for your co-operation
